

# Research Ethics Approval Process

## Principles underpinning educational research at City of Bristol College

**The Academy of Social Sciences (AcSS) through in-depth consultation with its member learned societies (including BERA) have established some principles of ethical research:**

- a. Social science is fundamental to a democratic society, and should be inclusive of different interests, values, funders, methods and perspectives.
- b. All social science should respect the privacy, autonomy, diversity, values and dignity of individuals, groups and communities.
- c. All social science should be conducted with integrity throughout, employing the most appropriate methods for the research purpose.
- d. All social scientists should act with regard to their social responsibilities in conducting and disseminating their research.
- e. All social science should aim to maximise benefit and minimise harm.
